OTHER PARTY

Sarah explained the conference process and explained that it is inappropriate to request "decision making authority" as RA at this type of meeting. Also order contemplates meeting at EPA offices. Senior Managers would be available for the meeting. We gave Mrs McQuiston the dates the senior managers were available. Pointed out that also informed her that Mr. Rude disregards the information in our voice-mail & continues to request this meeting during non-working hours. Sarah indicated that RME travel for public meetings regarding sites, but that this is not that type of meeting. Sarah also offered to do conference via telephone conference.
